Making the Internet work for your business:

Cost effective tips & tricks

3rd June 2009, 8am – 10am

Guest Speaker: Del Attah, Managing Director, Zeraxis

The internet has rapidly become one of the most powerful tools a business can use to help market and promote itself to new and existing customers. Search engines such as Google and Yell.com have made sourcing products and services simple and easy, but pay-per-click and online advertising can be expensive. The latest Streatham Business Breakfast seeks to dispel some of the myths surrounding the internet and help you make the internet work for you - simple, and cost effectively.

You are warmly invited to join us at Chilli Chutney Restaurant at 8am on 3rd June for a complimentary breakfast, networking and a presentation by Del Attah, Managing Director of Zeraxis – a leading south London e-commerce business.

Following on from the successful breakfasts held by Chilli Chutney and Southside Chamber, this event is the first of a series of new and exciting Streatham Business Breakfasts specially organised by South London Business and funded by Lambeth Council for companies in Streatham. Events will be held in venues across Streatham; please book early to avoid disappointment.
