

Are you a busy organisation  
in need of extra full time staff  
without breaking the bank?

SLB  
Group

## Apprenticeships

- Have you got jobs that need doing but not enough staff to do them?
- Have you considered taking on an apprentice but are wary of the commitment?
- Could you offer a young person aged 16-18 the opportunity to gain work experience and a qualification?

SLB ATA is a brand new initiative designed to provide logistics, administration and customer service support to busy companies. We overcome the challenges of taking on an apprentice by employing as well as training the young candidates for the duration of their apprenticeship. We assume all the responsibilities of an employer, all you have to do is HOST them!

- No recruitment costs to your business
- We source and employ the apprentices and manage their training & assessment
- Once sourced you will be given a choice of candidates to select for your organisation.

This is an opportunity to grow your business and its future talent through a cost-effective financial and risk-free recruitment process.
